ENVIRONMENTAL POLICY

At FT Technologies Ltd we acknowledge that we have a responsibility to protect the environment in which we operate.

FT Technologies is committed to reducing negative environmental impacts across our business activities in a cost efficient manner.

We recognise that this responsibility towards environmental considerations is companywide, including all members of FT Technologies Ltd staff.

FT Technologies Ltd is committed to the continual improvement of our environmental performance.

We will strive to:

- ▶ Ensure the highest environmental standards are maintained; meeting and exceeding all relevant legal requirements.
- ▶ Maximise energy efficiency within our operations.
- ▶ Reduce the amount of waste generated on the FT Technologies site, and increase the proportion of waste that is recycled.
- ▶ Minimise the risks from environmental, health or safety hazards for our employees, our neighbours and others in the vicinity of our operations.
- ▶ Adopt an environmentally sound transport strategy.
- ▶ Aim to include environmental and ethical considerations in our investment and purchasing decisions where appropriate.
- ▶ Agree Key Point Indicators to monitor and review our performance.

Managing Director:

Peter Elgar
